Instruction

AAEC 3690 – Agribusiness Finance / Upper division undergraduate	Spring 2020-2024, 2026
AAEC 6570 – Economic Tools for Business Decisions / Masters level	Spring 2020-2024, 2026
AAEC 8350 – Second-year Paper Class / PhD level	Spring 2020-2024, 2026

Statement of Teaching and Research Interests

In teaching, I emphasize interactive, applied learning across undergraduate and graduate levels. I blend lectures with case studies, real-time events, and mentoring to help students develop practical skills, critical thinking, and career readiness in applied economics. My research focuses on commodity markets, risk management, and the impacts of government policies, including topics like food price inflation, trade wars, crop forecasting, and market responses to natural and policy shocks. I use econometric methods to analyze real-world data, often collaborating with graduate students and securing external funding to support my work.
